PROJECTS & EXPERIENCE

Movie Search App [247movies.netlify.app](#)

- Utilized React hooks (`useState`, `useEffect`) for state management and API side effects
- Created custom hooks and used `useReducer` for scalable and reusable logic
- Implemented a modular component architecture with conditional rendering

Food Recipe App [icook-recipe.netlify.app](#)

- Built a recipe search app using vanilla JavaScript with efficient DOM manipulation
- Used ES6+ features (modules, async/await, promises) for API calls
- Applied MVC architecture and used localStorage for persistent bookmarks

Travel Tour Service Website [worldtouring.netlify.app](#)

- Developed a responsive multi-page website with Flexbox and CSS Grid
- Added animations and transitions for an interactive user experience
- Styled using Sass with variables, mixins, and modular structure

Professional Development

- Completed front-end development courses on Udemy, freeCodeCamp, and YouTube
- Practiced responsive design, accessibility, and performance optimization
- Used Git and GitHub for version control and open-source collaboration
